This webinar will be recorded.

Description:

This course will take the home health coder through scenarios and knowledge updates for all of the chapters related to home health ICD-10-CM coding.

This course will also include a brief overview of PDGM and how the HIPPS code is obtained to better understand payment methodology in home health.

Objectives:

1. Describe ICD-10-CM coding changes taking effect October 1st, 2023.
2. Cite examples of ICD-10 diagnosis codes that fall into the primary clinical grouping that best reflects the agency focus of care for each 30-day benefit period.
3. Identify key ICD-10 Coding strategies to capture low/high comorbidity adjustments to garner proper reimbursement.
4. Identify challenging aspects of intermediate coding scenarios and steps to correctly identify and sequence these properly.

Faculty:

Nanette Minton, RN, HCS-D, HCS-H, HCS-O, Senior Clinical Coding Manager, MAC Legacy

Serving in a leadership capacity for over 20 years, Nanette has held a variety of roles in the home care and hospice industry including clinical, administrative, consulting, education, and agency startup & development. She currently holds the position of Senior Clinical Coding Manager for MAC Legacy. Nanette provides day to day coding and quality support to the home care and hospice agencies receiving coding services. She also serves as a consultant for quality and regulatory issues that arise due to the complex and integrated nature of coding.

Nanette is proud to serve on the Association of Home Care Coding & Compliance (AHCC) BMSC Board as well as an Exam Committee Member. Being part of a coding expert panel allows her to stay current on coding trends, regulations and ever changing guidelines. Nanette's experience in the industry gives her a unique perspective and allows her to provide coding and audit knowledge firsthand to clients.

CODING MANUALS

Attendees will be **required** to have a **2024 ICD-10-CM coding manual (preferred) or a 2023 ICD-10-CM coding manual** during the series, as interactive coding scenarios will be an integral part of the learning experience. Code books will not be provided or sold with event registration and should be purchased ahead of time from a reputable source.

CONTINUING EDUCATION CREDITS

This program has been designed to meet the continuing education requirements for the Minnesota Board of Nursing for 8.0 contact hours. It is the responsibility of the participant to assure that this program meets the licensing and continuing education requirements of their state board and to retain the required documents in their personal file. Attendees must participate in the entire series in order for contact hours to be awarded – partial credit will not be available. To apply for nursing contact hours, within one week following webinar participation, a completed sign-in sheet and evaluations from each individual must be returned to MHCA. Certificates will then be issued by e-mail. BMSC CEUs application has been made.
